

# How to connect and combine

## *Kali Classic E* ⚡

Figure 1.

### SYMBOL LEGEND

-  Connect positive or negative pole.
-  Connect positive pole.
-  Connect negative pole.
-  Sado Bridge Wire connection.

## STANDARD BIPOLAR CONNECTION

Figure 2.

Connect the two opposite poles of the same output from the Powerbox\* to the two connectors shown in figure 2.

If necessary, use the two adapter cables supplied.

\*Powerbox is not included.

## SINGLE POLE CONNECTION - SADO BRIDGE

Figure 3.

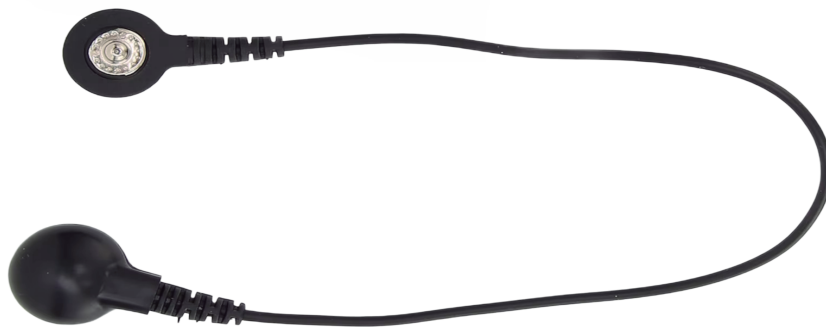

Figure 3.1.

Connect the **Sado Bridge Wire\*** (fig. 3.1) to the indicated plugs shown in figure 3.

Connect **one** of the two poles of the Powerbox\* to the **plug (Pole)** indicated in figure 3.

\*Powerbox is not included.

\*The Sado Bridge Wire is sold separately.

The other pole of the same output from the Powerbox\* should be connected to another electric toy. This will act as the second pole.

N.B: Always follow the instructions supplied with electrostimulation devices and use only certified devices.

SadoToys declines all responsibility for the improper use of electrostimulators and our products.

\*Powerbox is not included.

\*The Sado Bridge Wire is sold separately.

## Warnings and Safety Information.

- All SadoToys Electric ⚡ that do not use the 'Sado Bridge Wire' must be used in bipolar mode.
- Stimulation should never be performed in such a way that the current flows through the brain or heart.
- Never stimulate the larynx or oral cavity (it can cause suffocation).
- People with electronic or metal implants (e.g. pacemakers) should not use electrostimulation without first consulting a doctor. Do not use with heart defects, abnormal heart rhythms or epilepsy. Do not use during pregnancy.
- Always follow the safety instructions provided by the Powerbox manufacturer.

**SadoToys declines all responsibility for the improper use of electrostimulators and all our products.**

## Avvertenze e informazioni per la sicurezza.

- Tutti i dispositivi SadoToys Electric ⚡ che non prevedono l'utilizzo del 'Sado Bridge Wire', devono essere usati in modo bipolare.
- La stimolazione non deve mai avvenire in modo tale che la corrente elettrica scorra attraverso il cervello o il cuore.
- Non stimolare mai la zona della laringe o la cavità orale (potrebbero provocare il soffocamento).
- I portatori di impianti elettronici o metallici (ad es. pacemaker) non possono utilizzare l'elettrostimolazione senza aver prima consultato un medico. Non utilizzare con difetti cardiaci, anomalie del ritmo cardiaco ed epilessia. Non usare in gravidanza.
- Seguire sempre le istruzioni di sicurezza fornite dal produttore della Powerbox usata.

**SadoToys declina ogni responsabilità per l'uso improprio dei dispositivi di potenza e di tutti i suoi prodotti.**

## Advertencias e información de seguridad.

- Todos los dispositivos SadoToys Electric ⚡ que no utilicen el 'Sado Bridge Wire' deben utilizarse en modo bipolar.
- La estimulación nunca debe realizarse de forma que la corriente eléctrica fluya a través del cerebro o el corazón.
- No estimule nunca la zona de la laringe ni la cavidad bucal (podrían producir asfixia).
- Las personas con implantes electrónicos o metálicos (por ejemplo, marcapasos) no pueden utilizar electroestimulación sin consultar previamente a un médico. No usar con lesiones cardíacas, ritmos cardíacos anormales o epilepsia. No usar durante el embarazo.
- Siga siempre las normas de seguridad del fabricante del Powerbox que utilice.

**SadoToys declina toda responsabilidad por el uso inadecuado de los dispositivos de electroestimulación así como de sus productos.**

## Warn- und Sicherheitshinweise.

- Alle SadoToys Electric ⚡, die nicht das 'Sado Bridge Wire' verwenden, müssen im bipolaren Modus betrieben werden.
- Die Stimulation darf nie so erfolgen, dass Strom durch das Gehirn oder Herz fließt.
- Stimulieren Sie niemals den Kehlkopf oder die Mundhöhle, dies kann zum Ersticken führen.
- Personen mit elektronischen oder metallischen Implantaten (z. B. Herzschrittmacher) sollten die Elektrostimulation nicht ohne vorherige Rücksprache mit einem Arzt anwenden. Nicht anwenden bei Herzfehlern, Herzrhythmusstörungen oder Epilepsie. Nicht während der Schwangerschaft anwenden.
- Befolgen Sie stets die Sicherheitshinweise des Herstellers der Powerbox.

**SadoToys lehnt jede Verantwortung für den unsachgemäßen Gebrauch von Elektrostimulatoren und unseren Produkten ab.**
